CUSTOM WALLCOVERING: HOW IT WORKS

custom-printed in the USA

All wallcovering and murals are made to order. We offer a full turnkey solution for creating your custom wallcovering, from initial concept to final production. Our design development process includes unlimited revisions until you are satisfied with the results.

We help you create a unique space with your own custom-printed wallpaper in 4 simple steps:

1. Provide your own artwork or collaborate with our graphics team to create your desired design. There are no set-up fees or minimum amount of yardage required.
2. Select your substrate. We offer a variety of commercial-grade printable wall media, including smooth, textured and metallic finishes.
3. After creating your artwork, we submit a strike-off for final approval.
4. Once the strike-off is approved, we print your custom wallcovering in as little as 2 - 4 weeks. You are ready to install your ridiculously good looking wallpaper!

We want to turn your wallpaper concept into a reality. To get started, please book a consultation on our website.
